

Source Code:

```
int valADC;
char x[4];
void main()
{
    UART1_Init(9600);
    ADC_Init();
    while(1)
    {
        valADC = ADC_Read(0);
        IntToStr(valADC,x);
        UART1_Write_Text("Analog value = ");
        UART1_Write_Text(x);
        strcpy(x,"");
        UART1_Write(13);
        Delay_ms(1000);
    }
}
```

Output:
